

GAEA Technologies Ltd.

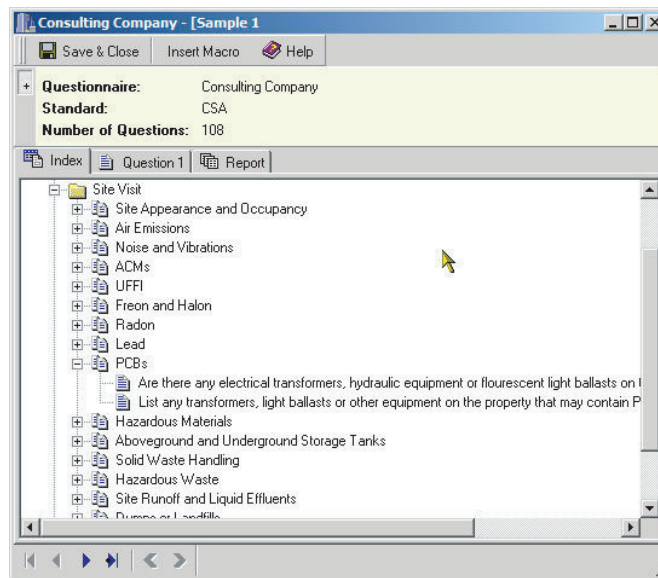

Pocket ESA

Pocket ESA represents a new method for collecting and reporting Phase I and II ESA data, Transaction Screening, Asbestos Surveys, Radon Sampling, Lead Sampling, etc. The data can be collected either on a Pocket, Tabloid, Laptop, or Desktop PC.

Pocket ESA has been designed to minimize the amount of time required to generate standard Environmental Site Assessment reports and to maximize the flexibility of the final report. A wide variety of reports can be created; including Phase I ESAs, Phase II ESAs, Environmental Compliance, and Transaction Screening. The reports can be tailored to any standard such as CSA and ASTM.

Pocket ESA can be used to generate almost any kind of report, based on a report template and questionnaire. To help you to start using the program as soon as possible, the program comes with several questionnaires and
